EDUCATION

Altinbas University   **Istanbul, TR**

BSc in Computer Engineering   *Graduation Date: January 2023*

PROJECTS

Personal Portfolio

- A portfolio to showcase my technical and design skills.

- One-page layout portfolio with modern UI designed using **bootstrap** and custom **CSS**.

- Fully responsive with reveal animations initialized using the **AOS** library.

Smart Brain (Face Detection App)

- A fully functional **full stack** application built using **react.js**, that can locate faces in a provided input.

- Utilized the **Clarifai API** which can automatically recognize faces from any angle.

- **Node.js/Express.js** used for signing in registered users and registering new users.

- **PostgreSQL** database manages and keeps track of how many entries a user has made.

- Improved the base application from only recognizing one face to now being able to recognize all the faces.

Guess The Flag (Game)

- Developed and designed a fun little game where you guess the flags that you see.

- Created this application using **react.js** and styled it with **material-ui**.

SKILLS

Skills: HTML5 | CSS3 | SCSS/SASS | Bootstrap | JavaScript | React.js + Hooks | Material-UI | Git

EXPERIENCE

JPMorgan Chase&Co.

Software Engineering Virtual Internship

- Used JPMorgan Chase frameworks and tools and implemented the Perspective open-source code in preparation for data visualization.

- Operated Perspective to create a chart for the trader's dashboard to display data visually for traders.

- Applied my technical skills to a hypothetical request from the firm's trading floor to analyze and visualize data

CERTIFICATES

JPMorgan Chase&Co. Software Engineering Virtual Internship   *March 2022*
